TRANSMITTAL LETTER

BOX PCT

Assistant Commissioner for Patents  
Washington, D.C. 20231

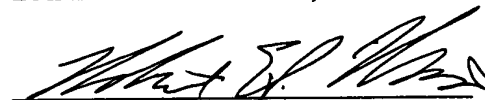

Sir:

In regard to the above-identified application:

1. We are transmitting herewith: Reply to Written Opinion mailed May 29, 2001, Transmittal Letter, Certificate of Mailing by Express Mail, and Return Postcard.
2. CERTIFICATE OF MAILING UNDER 37 CFR 1.10: The undersigned hereby certifies that this Transmittal Letter and the papers, as described in paragraph 1 hereinabove, are being transmitted by "Express Mail, Post Office to Addressee," (Express Mail No. EL735120436US) addressed to BOX PCT, Attn: IPEA/US, Assistant Commissioner for Patents, Washington, D.C. 20231 on this 27th day of July, 2001.

Respectfully submitted,  
BANNER & WITCOFF, LTD.

REPLY TO WRITTEN OPINION

BOX PCT  
 Commissioner for Patents and Trademarks  
 Washington, D.C. 20231

Dear Sir:

Applicant respectfully submits the following remarks in reply to the Written Opinion  
 mailed May 29, 2001.

REMARKS

The Written Opinion states that Claims 1-5 and 8-12 lack novelty under Article 33(2)  
 PCT as being anticipated by Ellwood et al. (U.S. Patent No. 5,833,913). Applicant  
 respectfully submits that Ellwood et al. does not disclose nor teach the method or apparatus  
 as claimed.

Ellwood et al. teaches a method for improving the strength of a weld line by providing  
 disrupters on the face of the mold near the interfacial regions of the mold where the two  
 injection streams meet. By disrupting the flow fronts, the flow front fragments and the flow  
 cores become more interspersed which improves the weld line strength. However, the weld  
 line is still generally planar across the cross section of the part being molded (Figs. 3a and  
 4a). Ellwood et al. does not disclose nor suggest interlocking the knit lines as claimed in  
 claim 1 and 8. Thus, applicant submits that Ellwood et al. does not anticipate Claims 1-5 and  
 8-12.

The Written Opinion has stated that Claims 1, 2, 8 and 9 lack novelty under Article 33(2) PCT as being anticipated by Kirby et al. (U.S. Patent No. 4,399,093). Kirby et al. teaches the use of solidifying one of the injections streams before the other thereby providing an enlarged weld line. Kirby et al. does not disclose forming an interlock knit line geometry as claimed in Claims 1 and 8. Thus, applicant submits that Kirby et al. does not anticipate Claims 1, 2, 8 and 9.

Applicant submits that none of the prior art references as cited by the Examiner fairly teaches or suggests the method and apparatus as claimed in Claims 1-5 and 8-12. None of the prior art even hints at causing the flow fronts of the two opposing injection streams to co-mingle or "handshake" to form the interlocking knit line as described at page 5 of the specification and as shown in Figures 3 through 6 of the present application. Thus, applicant respectfully submits that Claims 1-5 and 8-12 meet the criteria of Article 33(3) PCT and does involve an inventive step.

The Examiner is invited to contact the undersigned counsel should it be deemed helpful to facilitate prosecution of the application.

Respectfully submitted,  
BANNER & WITCOFF, LTD.

II. [X] New International Application

TITLE	INJECTION MOLDING TECHNIQUES UTILIZING INTERLOCKING KNIT LINES	Earliest priority date (Day/Month/Year)
		05 October 1999

**SCREENING DISCLOSURE INFORMATION:** In order to assist in screening the accompanying international application for purposes of determining whether a license for foreign transmittal should and could be granted and for other purposes, the following information is supplied. (Note: check as many boxes as apply):

- A. ☐ The invention disclosed was not made in the United States.  
 B. ☐ There is no prior U.S. application relating to this invention.  
 C. ☐ The following prior U.S. application(s) contain subject matter which is related to the invention disclosed in the attached international application. (NOTE: *priority to these applications may or may not be claimed on form PCT/RO/101 (Request) and this listing does not constitute a claim for priority*)

application no.		filed on	
-----------------	--	----------	--

- D. ☐ The present international application [ ] is identical to [ ] contains less subject matter than that found in the prior U.S. application(s) identified in paragraph C above.  
 E. ☐ The present international application [ ] contains additional subject matter not found in the prior U.S. application(s) identified in paragraph C above. The additional subject matter [ ] **DOES NOT ALTER [ ] MIGHT BE CONSIDERED TO ALTER** the general nature of the invention in a manner which would require the U.S. application to have been made available for inspection by the appropriate defense agencies under 35 U.S.C. 181 and 37 CFR 5.1. See 37 CFR 5.15.

III. [ ] A Response to an Invitation from the RO/US. The following document(s) is(are) enclosed:

- A. ☐ A Request for An Extension of Time to File a Response  
 B. ☐ A PCT Power of Attorney (General)  
 C. ☐ Replacement pages:

pages		of the request (PCT/RO/101)	pages		of the figures
pages		of the description	pages		of the abstract
pages		of the claims			

- D. ☐ Submission of Priority Documents  
 E. ☐ Fees as specified on attached Fee Calculation sheet form PCT/RO/101 annex

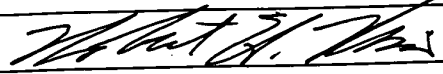

IV. [ ] A Request for Rectification under PCT Rule 91 [ ] A Petition [ ] A Sequence Listing Disk
